FOREWORD

Provision of quality education and training is fundamental to the Government's overall strategy for socio-economic development. Quality education and training contribute to achievement focused on Kenya's development blueprint and sustainable development goals.

Reforms in the education and training sector are necessary for achievement of Kenya Vision 2030 and meeting the provisions the Constitution of Kenya. The education sector had to be aligned to the Constitution and this resulted in formulation of the Policy Framework for Reforming Education and Training (Sessional Paper No. 1 of 2019). A key feature of this policy is the change in the design and delivery of TVET training. This policy document requires that training in TVET be competency based, curriculum development be industry led, certification be based on demonstration of competence and mode of delivery that allows for multiple entry and exit in TVET programs.

These reforms demand that Industry takes a leading role in curriculum development to ensure the curriculum addresses its competence needs. It is against this background that this Curriculum has been developed.

It is my conviction that this curriculum will play a great role towards development of competent human resource for the healthcare support services sector's growth and sustainable development.

**PRINCIPAL SECRETARY
STATE DEPARTMENT FOR TVET
MINISTRY OF EDUCATION**

PREFACE

Kenya Vision 2030 aims to transform the country into a newly industrializing, middle-income country providing high quality life to all its citizens by the year 2030. Kenya intends to create a globally competitive and adaptive human resource base to meet requirements of a rapidly industrializing economy through life-long education and training. TVET has a responsibility of facilitating the process of inculcating knowledge, skills and worker behaviour necessary for catapulting the nation to a globally competitive country, hence the paradigm shift to embrace Competency Based Education and Training (CBET).

The Technical and Vocational Education and Training Act No. 29 of 2013 and the Sessional Paper No. 1 of 2019 on Reforming Education and Training in Kenya, emphasized the need to reform curriculum development, assessment and certification. This called for a shift to CBET to address the mismatch between skills acquired through training and skills needed by industry as well as increase the global competitiveness of Kenyan labour force.

This curriculum has been developed in adherence to the Kenya National Qualification Framework and CBETA standards and guidelines. The curriculum is designed and organized into Units of Learning with Learning Outcomes; suggested delivery methods, training/learning resources and methods of assessing the trainee's achievement. The curriculum is competency-based and allows multiple entry and exit to the course.

I am grateful to the Council Members, Council Secretariat, National Sector Skills Advisory expert workers and all those who participated in the development of this curriculum.

**CHAIRPERSON
TVET CDACC**

ACKNOWLEDGEMENT

This curriculum has been designed for competency-based training and has independent units of learning that allow the trainee flexibility in entry and exit. In developing the curriculum, significant involvement and support was received from industry and various organizations.

I appreciate National Sector Skills Committee who enabled the development of this curriculum. I recognize with appreciation the role of the SSC in ensuring that competencies required by the industry are addressed in this curriculum.

I also thank all stakeholders in the Construction sector for their valuable input and all those who participated in the process of developing this curriculum.

I am convinced that this curriculum will go a long way in ensuring that workers in construction sector will acquire competencies that will enable them perform their work more efficiently.

**COUNCIL SECRETARY/CEO
TVET CDACC**

SUB TOTAL			920	92
GRANDTOTAL			1760	176

Entry Requirements

An individual entering this course should have any of the following minimum requirements

a) Kenya Certificate of Secondary Education (KCSE) mean grade D Plain;

or

b) Certificate in Caregiving level 4 or related trade area;

or

c) Equivalent qualifications as determined by TVET Authority

Trainer Qualification

Qualifications of a trainer for this course include:

- a) Possession of at least level 6 qualification in relevant Health and Welfare related trade area;
- b) License by TVETA; and
- c) License by relevant regulatory body or by Kenya Health Professions Oversight Authority.

Industry Training

An individual enrolled in this course will be required to undergo Industry training for a minimum period of 480 hours in health care sector. The industrial training may be taken after completion of all units for those pursuing the full qualification or be distributed equally in each unit for those pursuing part qualification. In the case of dual training model, industrial training shall be as guided by the dual training policy.

Assessment

The course shall be assessed formatively and summatively:

- a) During formative assessment all performance criteria shall be assessed based on performance criteria weighting.
- b) During summative assessment basic and common units shall be integrated in the core units.
- c) Summative assessment shall involve practical assessment focusing more on critical aspects of the respective unit of competency.
- d) Theoretical and practical weight for each unit of learning shall be as follows;
 - i) 10: 90 for module I and II
 - ii) 30:70 for module III and IV
- e) Theoretical (written/oral) assessment shall have formative and summative assessments weighted at 60% and 40% respectively in the overall unit of learning score.
- f) Assessment performance rating for each unit of competency shall be as follows:

MARKS	COMPETENCE RATING
80 -100	Attained Mastery
65 - 79	Proficient
50 - 64	Competent
49 and below	Not Yet Competent
Y	Assessment Malpractice/irregularities

- g) Assessment for Recognition of Prior Learning (RPL) is not applicable for this program.

Certification

A candidate will be issued with a Certificate of Competency upon demonstration of competence in a core Unit of Competency. To be issued with the National TVET Certificate in Healthcare Support Services Level 5, the candidate must demonstrate competence in all the Units of Competency as given in the qualification pack. Statement of Attainment certificate may be awarded upon demonstration of competence in certifiable element within a unit.

These certificates will be issued by TVET CDACC.

MODULE ONE (1)

HOUSE KEEPING SERVICES

TVET CDACC Unit Code: HW/CU/HBC/CR/01/3/MA

ISCED Unit Code: 1011 251 01A

UNIT DURATION: 60 HOURS

Relationship To Occupational Standards

This unit addresses the unit of competency: provide housekeeping services.

Unit Description

This unit focuses on the essential housekeeping skills required to maintain a safe, clean and comfortable environment for individuals. It involves performing cleaning services, performing bed making and laundering articles and fabrics.

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

Learning Outcome	Duration (Hrs)
1. To perform cleaning service	15
2. To perform bed making	15
3. To launder articles and fabrics	30
Total	60

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Perform cleaning service	• Cleaning equipment and materials • Cleaning procedures • Cleaning checklists	• Practical • Oral questioning • Third-party report

		• Written test
2. Perform bed making	• Beds and beddings • Bed making procedure • Decorating guest beds	• Practical • Oral questioning • Written tests • Third-party report
3. To launder articles and fabrics	• Laundry equipment and materials • Pre-laundry activities • Laundry procedures • Laundry checklists • Finishing equipment • Finishing procedures • Finishing checklists	• Practical • Oral questioning • Third-party report • Written test

Suggested Methods of Instruction

- Instructor led facilitation of theory
- Demonstration by trainer
- Practical work by trainee
- Viewing of related videos

Recommended Resources For 25 Trainees (Cleaning)

- 10 Squeezers
- 10 Brooms
- 10 Mops
- 10 Scrubbers
- 10 Buckets

- 1 Vacuum cleaner
- 1 Scrubbing machines
- Mattresses
- Beds and beddings
- 10 Dusters

Recommended Resources For 25 Trainees (Laundry)

- Laundry equipment
- Automated Washing machines
- Tumble dryers
- Calendars
- Laundry agents
- Powder soap
- Fabric conditioner
- Finishing equipment
- Steam press
- Iron boxes
- Ironing boards
- Linen shelves
- Linen control sheets
- Linen checklists

CLIENT'S DIETARY INTERVENTIONS

TVET CDACC Unit Code: HW/CU/HBC/CR/02/3/MA

ISCED Unit Code: 0915 251 02A

Relationship to Occupational Standards

This unit addresses the Unit of Competency: perform clients 'dietary interventions

Duration of Unit: 50 hours

Unit Description

This unit covers the competencies required to carry out patient dietary needs. It involves; establishing patient dietary needs, drawing individualized feeding care plan, carrying out feeding care plan interventions and conducting continuous dietary monitoring.

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

Learning Outcome	Duration (Hrs)
1. Establish patient dietary needs.	12
2. Draw individualized feeding care plan.	12
3. Carry out feeding care plan interventions.	16
4. Conduct continuous dietary monitoring	10
Total	50

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Establish patient dietary needs	• Meaning of dietary needs • Type of dietary needs • Dietary assessment tools. ✓ 24hr dietary recall profile ✓ Food record profile ✓ Food frequency questionnaire profile ✓ Screener's profile • dietary needs ✓ Low blood levels ✓ Low electrolytes ✓ Allergies	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment

	✓ Lactose intolerance ✓ Vegetarianism ✓ Ketogenic diet ✓ Low carbs ✓ Diabetic • Routes of feeding via tube and oral • Feeding resources ✓ nasal gastronomy ✓ gastrotomy tube • Family members	
2. Draw individualized feeding care plan	• Meaning of individualized feeding care plan • Types of individualized feeding care plan • Tools for feeding in individualized feeding • Grocery list in individualized feeding • Recipes individualized feeding • Menu individualized feeding	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment
3. Carry out feeding care plan interventions	• Client diet counselling in feeding care plan interventions • Feeding tools in feeding care plan interventions • Client dietary preferences feeding care plan interventions • Patient cultural practices feeding care plan interventions • Safe food handling procedures feeding care plan interventions • Individualized meal feeding care plan interventions • Patient feeding	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment

	• Feeding tools cleaning procedures	
4. Conduct continuous dietary monitoring	• Meaning of continuous dietary monitoring • Reassessment i.e., tentation, vomiting, diarrhoea • Reintervention administers • Ways of report dissemination • Appropriate referrals • Documentation recording formats	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment

Suggested Methods of Instruction

- Guided practical activities
- Direct instruction
- Group Discussion
- Demonstrations
- Case studies
- Role playing

Recommended Resources for 25 Trainees

- 2 First aid kits
- Adequate utensils
- 2 Dustbins
- 1 White boards
- 1 projector
- 1 computer/laptop
- Simulated room with adequate furniture and stationery

PSYCHOSOCIAL CARE

TVET CDACC Unit Code: HW/CU/HBC/CR/03/3/MA

ISCED Unit Code: 0915 251 03A

UNIT DURATION: 70 Hours

Relationship to Occupational Standards

This unit addresses the Unit of Competency: provide psychosocial care.

Unit Description

This unit describes competencies required to offer psychosocial care. It involves assessing emotional and social needs, conducting emotional and social support and conduct self-care.

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

Learning Outcomes	Duration (Hrs)
1. Assess emotional and social needs	20
2. Conduct emotion and social support	30
3. Conduct Self Care	20
Total	70

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Assess emotional and social needs	- Emotional and social needs are identified - Depression - Anxiety - Fear - Pain - Stress - Emotions - Challenges facing client	- Case studies - Observation - Written Tests - Assignments - Supervised exercise - Simulation

	○ Emotional ○ Cognitive ○ Communication ○ Cultural and social factors ○ Environmental and situational challenges ○ Mental health and psychological factors ● Tools and techniques for psychosocial needs ○ Active listening ○ Oral questioning ○ Observation	
2. Conduct emotion social support	● Creating rapport ○ Introduction, ○ Observation ○ Oral questioning ○ Non-verbal communication ○ Open communication ○ Active listening ● Family session ○ Meetings ○ Informal discussion. ● Psychosocial resources ○ Spiritual person ○ Welfare groups ○ Support group ○ Fellowships ● Necessary psychosocial interventions ○ Improve the quality of life ○ Social inclusion	● Practical ● Interview ● Third Party Reports ● Written Tests ● Project

	○ Build self-confidence, ○ Acceptance of the condition	
3. Conduct Self Care	● Self-evaluation ○ Daily checklist ○ Set limit ○ Strengths and weaknesses ● Personal hygiene ● Recreational practices	● Interview ● Third party reports ● Observation ● Oral questions ● Individual or group assignment

Suggested Methods of Instruction

- Role playing
- Viewing of related videos
- Discussion
- Direct Instruction

Recommended Resources for 25 Trainees

- 2 Laptops
- Internet connection
- 2 Projectors
- 2 Whiteboards
- 2 rolls Flip Charts
- Assorted colour of whiteboard markers
- Stationery
- Journals

PRE-DEPARTURE PROCESSES

TVET CDACC Unit Code: HW/CU/HBC/CR/04/3/MA

ISCED Unit Code: 1015 251 04A

Relationship to Occupational Standards

This unit addresses the unit of competency: Carry out pre-departure process

Duration of Unit: 50 hours

Unit Description

This unit specifies the competencies required to carry out pre-departure training. It involves researching destination country, processing travel documents, demonstrating travel process and establishing work ethics and legal aspects of destination country.

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

Learning Outcomes	Duration (Hrs)
1. Research destination country	14
2. Process travel documents	12
3. Demonstrate Understanding of travel process	12
4. Establish work ethics and legal aspects of destination country	12
Total	50

Learning Outcomes, Content and Methods of Assessment

Learning Outcome	Content	Methods of Assessment
1. Research destination country	• Introduction to pre-departure training • Meaning of terms • Factors to consider in pre-departure training	• Observation • Oral questions • Third party report • Written tests • Project and report writing
2. Process travel documents	• Travel documents • Acquisition of travel documents	• Observation • Oral questions • Third party report • Written tests

Learning Outcome	Content	Methods of Assessment
		Project and report writing
3. Demonstrate understanding of the travel process	- Modes of transport - International travel procedures - Travel etiquette - Transit process - Arrival and reception services	- Observation - Oral questions - Third party report - Written tests - Project and report writing
4. Establish work ethics and legal aspects of destination country	- Work ethics - Types of remittances - Legal aspects in immigration - Emerging trends in immigration	- Observation - Oral questions - Third party report - Written tests - Project and report writing

Suggested Methods of Instruction

- Project
- Demonstration by trainer
- Practice by the trainee
- Group work
- Discussions
- Instructor led facilitation of theory
- Case study
- Audio –visual aids

Recommended Resources

- Computer/Laptops, projectors
- Text books
- Flipcharts
- Printers
- Tablets
- Geographical maps/GPRS
- Internet connectivity

MODULE II

FIRST AID SERVICES

TVET CDACC Unit Code: HW/CU/CG/CC/01/4/MA

ISCED Unit Code: 0913 351 06A

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Provide First Aid Services

Duration of Unit: 60 hrs

UNIT DESCRIPTION

This unit specifies the competencies required to provide first aid services. It involves assessing the nature and extent of injury or illness, provide first aid services, evaluate first aid service and wind-up first aid.

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

Learning Outcome	Duration (Hrs)
1. Assess the nature and extent of injury or illness	20
2. Provide first aid Intervention	20
3. Evaluate first aid services	10
4. Wind-up first aid	10
Total	60

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Assess the nature and extent of injury or illness	- Principles of first aid - Scene size up - Assessment of nature and extent of injury and /or illness - Sourcing for emergency services - Decision making-triaging - Requirements for first aid	- Practical assessment - Projects - Portfolio of evidence - Written tests - Oral assessment
2. Provide first aid services	- Performing cardio- pulmonary resuscitation; - Management of: ✓ Choking,	- Practical assessment - Projects

	✓ Burns and scalds, ✓ Trauma ✓ Nose bleeding, ✓ Cuts, ✓ Fractures, ✓ Drowning, ✓ Poisoning ✓ Snake bites ✓ Dislocations ✓ Unconsciousness ✓ Epilepsy ✓ Insect stings ✓ Asphyxia ✓ Inhalation of fumes ✓ Hiccups ✓ Hyperventilation ✓ Sprains and strains ✓ Skull fracture ✓ Neck injuries ✓ Convulsions ✓ Extreme of temperatures • Assisting patients with medical conditions such as: ✓ Asthma, ✓ Epilepsy ✓ Hyperglycaemia ✓ Hypoglycaemia ✓ Heart attack ✓ Severe allergic conditions /anaphylaxis ✓ Bleeding ✓ Seizures • Effective communication on casualty's condition to medical personnel or care taker/care giver • Handing over casualty to medical personnel or to immediate care giver including family members or next of kin • Monitoring Casualty's condition	• Portfolio of evidence • Written tests • Oral assessment
--	--	---

3. Evaluate first aid service	• Evaluating response of the casualty to the intervention • Evaluating first aider's response to the situation • Referral procedure ✓ Documentation ✓ Handing over process	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment
4. Wind-up first aid	• Documentation • Waste disposal and management • Report writing	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment

Suggested Methods of Delivery:

- Guided practical activities
- Direct instruction
- Group Discussion
- Demonstrations
- Case studies

Recommended Resources for 25 trainees

- Adequate PPEs
- 2 first aid kits
- 3 Waste disposal bins
- 2 first aid charts
- 1 White boards
- 1 projector
- 1 computer/laptop
- Simulated room with adequate furniture and stationery

CAREGIVING CATERING SERVICES

TVET CDACC Unit Code: HW/CU/CG/CR/01/4/MA

ISCED Unit Code: 0915 351 07A

UNIT DURATION: 180 Hours

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Provide Caregiving Catering Services

Unit Description

This unit focuses on the skills and knowledge required to provide caregiving catering services in a care setting. It emphasizes the importance of performing previous preparations, preparing and presenting meals and performing post production tasks.

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

Learning Outcomes	Duration (Hrs)
1. Perform previous preparation	60
2. Prepare main meal	60
3. Present main meal	40
4. Perform post production tasks	20
Total	180

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Perform previous preparation	1.1 Identify and use PPEs as per manufacturers' instructions	• Practical • Interview

	1.2 Air pproduction room as per workplace procedures 1.3 Select and assemble cleaning materials and equipment 1.4 Clean and assemble food production tools and equipment as per workplace procedures 1.5 Clean food production tools, surfaces and equipment appropriately 1.6 Collect and weigh ingredients as per recipe	• Third party reports • Written tests • Project
2. Prepare main meal	2.1 Use recommended equipment for cooking each food item 2.2 Apply cooking methods as per recipe 2.3 Maintain correct temperatures as per recipe 2.4 adhere to timings as per recipe	• Practical • Interview • Third party reports • Written tests • Project
3. Present main meal	3.1 Hold main meal prepared at required temperatures 3.2 Portion and garnish main meal prepared as per recipe 3.3 present main meal in correct equipment	• Practical • Interview • Third party reports • Written tests • Project
4. Perform post production tasks	4.1 Clean and store tools, equipment and materials as per workplace procedures 4.2 Clean work surfaces and floors as per workplace procedures	• Practical • Interview • Third party reports • Written tests • Project

	4.3 Dispose waste as per workplace procedures	
--	---	--

Suggested Methods of Instruction

- Demonstration by Instructor
- Practical Work

Recommended Resources for 25 Trainees

- 2 Laptops
- Internet connection
- 2 Projectors
- 5 boxes Assorted Flash Cards
- 5 Whiteboards
- 5 rolls Flip Charts
- Assorted colour of whiteboard markers
- 25 note books
- A Fully Equipped Operational Kitchen Including Industrial -Current Tools and Equipment

Equipment

- 12 burner gas range
- 2 refrigerators
- 2 Double decker industrial oven
- 1 commercial mixer
- 2 commercial blender
- 1 commercial freezer
- 1 potato chipper

Small kitchen equipment & utensils

- 10 sauce pans with lids
- 10 cooking sticks
- 10 cooking spoons
- 10 whisks

- 10 utility bowls
- 5 thermos
- 10 tea spoons
- 10 table spoons
- 10 measuring jugs
- 10 plastic bowls
- 10 glass bowls
- 10 chopping boards
- 10 chefs knives
- 5 rubber spatulas

Cleaning materials

- 1 litre detergent
- 1 Barsoap
- 5 Scouring pads
- 5 pcs Steelwool
- 5 Window cleaner
- 5 Yellow dusters

Cleaning equipment

- 2 Cobweb removers
- 2 soft brush
- 2 dustpan & brush
- 5 Mops
- 5 Mop buckets
- 5 Hardbrush
- 2 Squeezers
- 4 large dustbins

Safety equipment

- 5 assorted Fire extinguishers
- 2 Fire blankets
- 2 complete first aid kits

SPECIAL NEEDS CARE SUPPORT

TVET CDACC Unit Code: HW/CU/CG/CR/02/4/MA

ISCED Unit Code: 0913 351 08A

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Provide special care support

Duration of Unit: 120 hours

Unit Description

This unit covers competencies required to support special needs care. It involves competencies on providing care for geriatrics, providing care for terminally ill patients, providing care for mentally ill patients, providing care for disabled, providing care for children with special needs and conducting patient psycho-social support.

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

Learning Outcome	Duration (Hrs)
1. Provide care for geriatrics	20
2. Provide care for terminally ill patients	20
3. Provide care for mentally ill patients	20
4. Provide care for disabled	20
5. Provide care for children with special needs.	20
6. Conduct patient psycho-social support activities	20
Total	120

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Provide care for geriatrics	• Meaning of client home environment assessment • Ways of assessing client condition • Steps in developing a working contract • Meaning of geriatric care activities • Types of geriatric care activities • Steps of preparing geriatric report • Referral for geriatric patient/client	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment

2. Provide Care for terminally ill patients	• Ways of assessing terminally ill patient condition. • Types of terminal illnesses • Types of terminal ill care activities • Steps of carrying out terminal ill care activities • Steps in preparing terminal ill care report • Referral for terminally ill patient/client	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment
3. Provide Care for mentally ill patients	• Meaning of mental illness • Types of mental illness • Assessment of mentally ill client condition • Types of mental illness care activities • Steps in preparing mental illness care report • Referral for mentally ill patient/client	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment
4. Provide Care for disabled	• Meaning of disability • Types of disabilities • Assessment of disabled client condition • Types of disability care activities • Steps in preparing disability care report • Referral for disabled patient/client	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment report
5. Provide Care for children with special needs.	• Meaning of special needs • Types of special needs in children • Care activities for special needs in children • Referral for children with special needs	• Practical assessment • Projects • Portfolio of evidence • Written tests • Oral assessment
6. Conduct patient psycho-social support activities	• Meaning of psycho-social support • Types of psycho-social conditions • Psycho-social assessment tools • Preparation of psycho-social support contract	• Practical assessment • Projects • Portfolio of evidence

	• Types of psycho-social support activities • Preparation of psycho-social support report.	• Written tests • Oral assessment
--	---	--

Suggested Methods of Delivery:

- Guided practical activities
- Direct instruction
- Group Discussion
- Demonstrations
- Case studies

Recommended Resources for 25 trainees

- 1 White boards
- 1 projector
- 1 computer/laptop
- Adequate internet
- Simulated room with adequate furniture and stationery

MODULE THREE III

DIGITAL LITERACY

TVET CDACC Unit Code: HW/CU/HSS/BC/01/5/MA

ISCED Unit Code: 0611 451 09A

Relationship to Occupational Standards

This unit addresses the Unit of Competency: apply digital literacy

Duration of Unit: 40 Hours

Unit Description

This unit covers the competencies required to Apply digital literacy. It involves operating computer devices, solving tasks using computer devices and applying cybersecurity skills.

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

	ELEMENTS	DURATION (HOURS)
1	Operate computer devices	6
2	Solve tasks using office site	14
3	Manage data and information	6
4	Perform online communication and collaboration	4
5	Apply cybersecurity skills	4
6	Perform online jobs	4
7	Apply job entry techniques	2
	Total	40

Learning Outcomes, Content, and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Operate computer devices	• Meaning and importance of digital literacy • Procedure for turning/off a computer • Types of computer devices (tablets, desktop, and laptop computers). • Components of a computer system • Computer Hardware	• Observation • Oral assessment • Portfolio of evidence • Third party report

Learning Outcome	Content	Suggested Assessment Methods
	• The System Unit E.g. Motherboard, CPU, casing, • Input Devices e.g. Pointing, keying, scanning, voice/speech recognition, direct data capture devices. • Output Devices e.g. hardcopy output and softcopy output • Storage Devices e.g. main memory e.g. RAM, secondary storage (Solid state devices, Hard Drives, CDs & DVDs, Memory cards, Flash drives • Computer Ports e.g. HDMI, DVI, VGA, USB type C, etc. • Start Menu Commands and Desktop Manipulation • Mouse use techniques • Keyboard Parts and Use Techniques • File and Files Management using an operating system • Computer Internet Connection Options • Mobile Networks/Data Plans • Wireless Hotspots • Cabled (Ethernet) • Mechanisms for storing files (flash drives, hard drives). • Computer external devices management • Device connections • Device controls (volume controls and display properties)	• Written assessment • Practical

Learning Outcome	Content	Suggested Assessment Methods
2. Solve tasks using computer devices	• Meaning and Importance of Word Processing • Examples of Word Processors • Working with word documents • Open and close word processor • Create a new document • Save a document • Using navigation tools • Enter & Select text • Document editing (copy, cut, paste commands, spelling and Grammar check) • Document formatting • Formatting text • Formatting paragraph • Formatting styles • Alignment • Creating tables • Formatting tables • Graphical objects • Insert object (picture, drawn object) • Select an object • Edit an object • Format an object • Document Print setup • Page layout, • Margins set up • Orientation. • Printing Word Documents • Netiquette principles • Digital content copyright and licenses • Web browsing	• Observation • Oral assessment • Portfolio of evidence • Third party report • Written assessment • Project • Practical

Learning Outcome	Content	Suggested Assessment Methods
	• Using the web browser • Web based information • Search • Using email • Sending email • Receiving email • Organizing email • Internet security threats • Using Passwords, antivirus software and privacy settings to control security threats • Performing Digital Data Backup (Offline) • Emerging issues in internet	
3. Apply cybersecurity skills	• Meaning and Importance of Cybersecurity • Types and examples of internet security threats • Using Passwords, PINs, Biometrics e.g. voice and fingerprint, antivirus software and privacy settings to control security threats • Performing Digital Data Backup (Offline) • Types of computer threats and crimes • Control measures against computer threats and crimes.	• Observation • Oral assessment • Portfolio of evidence • Third party report • Written assessment
4. Apply job entry techniques	• Types of job opportunities • Self-employment • Service provision • product development • salaried employment • Sources of job opportunities • Resume/ curriculum vitae • What is a CV	• Observation • Oral assessment • Portfolio of evidence • Third party report • Written assessment

Learning Outcome	Content	Suggested Assessment Methods
	• How long should a CV be • What to include in a AC • Format of CV • How to write a good CV • Don'ts of writing a CV • Job application letter • What to include • Addressing a cover letter • Signing off a cover letter Portfolio of Evidence • Academic credentials • Letters of commendations • Certificates of participations • Awards and decorations Interview skills • Listening skills • Grooming • Language command • Articulation of issues • Body language • Time management • Honesty • Generally knowledgeable in current affairs and technical area	

Suggested Methods of Instruction

- Instructor-led facilitation
- Demonstration by trainer
- Practical work by trainees
- Viewing of related videos
- Group discussions
- Projects

- Case studies
- Role play

Recommended Resources for 25 Trainees

- 25 computers with the following software:
 - Windows/Linux/Macintosh Operating System
 - Microsoft Office Software
 - Google Workspace Account
 - Antivirus Software
- 25 External Storage Media
- 2 Printers
- Printing papers
- 2 Projectors
- 2 Whiteboards
- 2 Smartboards/Smart TV (Where applicable)
- Assorted white board markers
- Internet connection
- 3 samples of CVs
- 3 samples of job applications

COMMUNICATION SKILLS

TVET CDACC UNIT CODE: HW/CU/HSS/BC/02/5/MA

ISCED UNIT CODE: 0031 441 02A

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Apply Communication Skills

Duration of Unit: 40 hours

Unit Description

This unit covers the competencies required to apply communication skills. It involves applying communication channels, written, non-verbal, oral, and group communication skills.

Summary of learning outcomes

By the end of this unit, the learner should be able to:

S/No	Learning Outcomes	Duration (40 hours)
1.	Apply communication channels	8
2.	Apply written communication skills	8
3.	Apply non-verbal communication skills	8
4.	Apply oral communication skills	8
5	Apply group communication skills	8
Total		40

Learning Outcomes, Content, and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Apply communication channels	1.1. Communication process 1.2. Principles of effective communication	• Oral questions • Written assessment • Observation

Learning Outcome	Content	Suggested Assessment Methods
	1.3. Channels/medium/modes of communication 1.4. Factors to consider when selecting a channel of communication 1.5. Barriers to effective communication 1.6. Flow/patterns of communication 1.7. Sources of information 1.8. Organizational policies	• Portfolio of Evidence • Practical assessment • Third party report
2. Apply written communication skills	2.1. Types of written communication 2.2. Elements of communication 2.3. Organization requirements for written communication	• Oral assessment • Written assessment • Observation • Portfolio of Evidence • Practical assessment • Third party report
3. Apply non-verbal communication skills	Utilize body language and gestures 3.2 Apply body posture 3.3 Apply workplace dressing code	• Oral assessment • Written assessment • Observation • Portfolio of Evidence • Practical assessment

Learning Outcome	Content	Suggested Assessment Methods
		• Third party report
4. Apply oral communication skills	4.1 Types of oral communication pathways 4.2 Effective questioning techniques 4.3 Workplace etiquette 4.4 Active listening	• Oral assessment • Written assessment • Observation • Portfolio of Evidence • Practical assessment • Third party report
5. Apply group discussion skills	5.1 Establishing rapport 5.2 Facilitating resolution of issues 5.3 Developing action plans 5.4 Group organization techniques 5.5 Turn-taking techniques 5.6 Conflict resolution techniques 5.7 Team-work	• Oral assessemnt • Written assessment • Observation • Portfolio of Evidence • Practical assessment

Suggested Methods of Instruction

- Discussion
- Roleplaying
- Simulation
- Direct instruction
- Demonstration
- Field trips

Recommended Resources for 25 trainees

General Resources	Tools and Equipment	Materials and Supplies
• 25 Desktop computers/laptops	Mobile phones	Flashcards
• Internet connection		Flip charts
• 1 Projector • 1 Printer		2 packets of assorted colors of whiteboard marker pens
• 1 Whiteboard		Printing papers
• Report writing templates		

MEDICAL TERMINOLOGY

TVET CDACC Unit Code: HW/CU/HSS/CC/01/5/MA

ISCED Unit Code: 0914 451 10A

Relationship to the Occupational Standards

This unit addresses the unit of competency: Apply Medical Terminology

Duration of Unit: 40 hours

UNIT DESCRIPTION

This unit specifies the competencies required to apply medical terminology in communicating medical language, and in interacting and sharing information with medical professionals. It involves demonstrating understanding of medical acronyms and abbreviation, interpreting medical acronyms and abbreviation, interpreting medical terms associated with human body systems and their disorders and meeting communication needs of clients

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

Learning Outcomes	Duration (Hrs)
1. Demonstrate understanding of medical acronyms and abbreviation	10
2. Interpret medical acronyms and abbreviation	10
3. Interpret medical terms associated with human body systems and their disorders	10
4. Meet communication needs of clients	10
Total	40

Learning Outcome, Content and Suggested Assessment methods.

Learning Outcome	Content	Suggested Assessment Methods
1. Demonstrate understanding of medical acronyms and abbreviation	• Medical acronyms • Medical abbreviations • Medical terms • Terms associated with drugs	• Written tests • Oral presentations • Demonstrations • Oral questioning
2. Interpret medical acronyms and abbreviation	• Prefixes • Root words • Suffixes	• Written tests • Oral presentations • Demonstrations

	• Medical acronyms and abbreviations	• Oral questioning
3. Interpret medical terms associated with human body systems and their disorders	• Medical terms associated with human body systems • Medical terms associated with human body structure and disorders • Interpretations of the medical terms	• Written tests • Oral presentations • Demonstrations • Oral questioning
4. Meet communication needs of clients	• Health information sharing need • Health information is shared with clients as per instructions.	• Written tests • Oral presentations • Demonstrations • Oral questions

Suggested delivery methods

- Instructor led facilitation of theory
- Demonstrations by trainer
- Group discussions by trainees
- Viewing of related videos

Recommended Resources

- Medical terminology manuals
- Laptop computers
- Desktop computers
- Internet access
- Flash cards

COMMON DISEASES CONTROL

TVET CDACC Unit Code: HW/CU/HSS/CC/04/5/MA

ISCED UNIT CODE: 0914 451 11A

Duration of unit: 80 hours

UNIT DESCRIPTION

This unit specifies the competencies required to demonstrate the knowledge of common diseases. It involves demonstrating knowledge of organization of the human body, demonstrating the knowledge of communicable diseases, demonstrating the knowledge of non-communicable diseases and demonstrating the knowledge of management of common diseases

Summary of Learning Outcomes

Learning Outcomes	Duration (Hrs)
1. Outline Communicable Diseases	20
2. Outline Non-Communicable Diseases	20
3. Support Common Diseases Management	40
Total	80

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Outline communicable diseases	• Communicable diseases • Modes of transmission of communicable diseases	• Practical • Observation • Written
2. Outline non-communicable diseases	• Non-communicable diseases • Risk factors of non-communicable diseases	• Practical • Observation • Written
3. Support Common Diseases Management	• Control and Prevention measures of common diseases • Basic management of common diseases	• Practical • Observation

Suggested Methods of Delivery:

- Instructor lead facilitation of theory
- Practical demonstration of tasks
- Practice by trainee
- Simulation/Role play
- Group Discussion

List of recommended resources

• Skills laboratory • Computer • Whiteboard • Internet • Whiteboard markers	• Books • Projector

HUMAN ANATOMY AND PHYSIOLOGY

TVET CDACC UNIT CODE: HW/CU/HSS/CC/02/5/MA

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Apply Human Anatomy and Physiology

Duration of Unit: 100 hours

Unit Description

This unit specifies the competencies required to apply human anatomy and physiology. It involves outlining organization of human body, body fluids and their functions, body tissues and membranes and their functions, body cavities, human skeletal system, muscles of the body and their functions, body joints, circulatory system, lymphatic system, endocrine system and its functions, nervous system and its function, digestive system and its function, urinary system and its function, respiratory system and its function, special senses and their functions, reproductive system and its functions.

Summary of Learning Outcomes

Learning Outcomes	Duration (hrs)
1. Outline human body organization	10
2. Describe human body fluids functions	20
3. Outline human body homeostasis	10
4. Outline human tissue and membranes and their functions	10
5. Outline functions of human body cavities	10
6. Describe functions of human body systems	40
Total	100

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Outline human body organization	• Meaning of anatomical terms • Branches of human Anatomy • Organization of the human body • Functions of the human body • Cell and cell cycle • Homeostasis	• Observation • Written • Oral • Third party report
2. Describe human body fluids and their functions	• Types human body fluids • Functions of the human body fluids • Types of electrolytes in the human body • Functions of electrolytes	• Observation • Written • Oral • Third party report

3. Outline human body tissues and membranes and their functions	• Meaning of terms tissues and membranes • Types tissues and tissue structures • Functions of tissues	• Written • Oral • Observation • Third party report
4. Outline human body cavities and functions	• Types of body cavities • Functions of human body cavities • Contents of body cavities	• Oral • Observation • Written • Third party report
5. Describe human body systems functions	Human Musculoskeletal System • Meaning of terms in the human skeletal system • Divisions of the human skeleton • Components of axial and appendicular skeleton • Types of bones • Functions of muscles • Types of joints • Structure of a joint • Functions of joints The Circulatory System • Components of circulatory system • Types of circulation • Structure and function of the blood • Structure and function of the heart • Structure and function of blood vessels • Components of lymphatic system • Functions of the components in the lymphatic system Endocrine • Types of hormones • Functions of hormones Nervous System • Types of neurons • Structure and function of a neuron • Divisions of nervous system and their components • Types of nervous reflexes	• Written • Oral • Observation • Third party report

	The human Digestive System • Structure and functions of components in digestive system • Process of digestion Urinary System • Structure and functions of components in urinary system • Process of urine formation Respiratory system • Structure and functions of components of the respiratory system • Respiration process Special Senses • Types of sensory organs • Structures of special organs • Functions of special organs Reproductive System • Structure and functions of components in the female reproductive system • Structure and functions of components in the male reproductive system • Process of human fertilization	
--	--	--

Suggested Methods of Delivery:

- Instructor lead facilitation of theory
- Practical demonstration of tasks
- Practice by trainee
- Simulation/Role play
- Group Discussion

Required resources

- Skills lab
- The human skeleton
- Manqué
- Anatomical wall charts
- Intravenous fluids
- PPE
- Computers

- Overhead projectors
- White boards

HOSPITAL STORE PROCEDURES

TVET CDACC Unit Code: HW/CU/HSS/CR/04/5/MA

ISCED UNIT CODE: 0914 451 12A

Duration of unit: 100 hours

UNIT DESCRIPTION

This unit covers competencies and skills required to support hospital store procedures. It involves: planning procurement and inventory services, performing supportive procurement, performing supportive inventory and storage procedures supporting hospital supplies distribution, evaluating supportive store procedures and winding up supportive facility store procedures

Summary of Learning Outcomes

1. Support Hospital Procurement Procedure
2. Support Inventory and Storage Procedures
3. Support Hospital Supplies Distribution Procedure
4. Support Last Offices (Mortuary) Activities
5. Evaluate Facility's Store Procedures
6. Wind-up Facility's Store Procedures

Learning Outcomes	Duration (hrs)
1. Support Hospital Procurement Procedure	14
2. Support Inventory and Storage Procedures	20
3. Support Hospital Supplies Distribution Procedure	20
4. Support Last Offices (Mortuary) Activities	30
5. Evaluate Facility's Store Procedures	10
6. Wind-up Facility's Store Procedures	6
Total	100

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Support Hospital Procurement Procedure	• Protective gear • Gathering Materials Medical supplies • Procurement • Dispatch	• Written tests • Oral presentations • Observation • Practical • Demonstrations
2. Support Inventory and Storage Procedures	• Inventory • Inventory management • Storage • Movement of supplies	• Written tests • Oral presentations • Observation

	• Unwanted supplies • Expired supplies	• Practical • Demonstrations
3. Support Hospital Supplies Distribution Procedure	• Departmental request orders • Departmental request dispatch	• Written tests • Oral presentations • Observation • Practical • Demonstrations
4. Support Last Offices (Mortuary) Activities	• Personal protective gear in the mortuary • Autopsy tools • Procedure for receiving dead body • Handling deceased' body property • Body cleaning • Embalming • Preparation of 10% formalin • Arterial embalming • Cavity embalming • Applying cosmetic features • Post-mortem procedure • Discharging dead body • Cleaning mortuary room • Cleaning up fridges • Maintenance of body fridges • Types of mortuary documents • Mortuary waste segregation • Mortuary waste disposal methods	• Written tests • Oral presentations • Observation • Practical •
5. Evaluate Facility 's Store procedures	• Facility store documents identification •	• Written tests • Oral presentations • Observation • Practical • Demonstrations

6. Wind-up Facility's Store Procedures	• Facility store documents • Faculty store waste segregation and storage	•
--	---	---

List of Recommended Resources

• Face mask • Gloves • Goggles • Decontaminant • Computer • Projector • Invoices • Delivery notes	• Disposable gowns • Trays • Stools • Gauze • Swabs • Waste bins • Polythine bags • Assorted scissors
--	--

Suggested Delivery Methods

- Instructor led facilitation of theory
- Demonstration by trainer
- Practical work by trainee
- Viewing of related videos
- Project
- Group discussions

Recommended Resources

- Desk top computers
- Laptop computers
- Other digital devices
- Printers
- Storage devices
- Internet access
- Computer software

INFECTION PREVENTION AND CONTROL

UNIT CODE: HW/CU/HSS/CR/02/5/MA

Relationship to Occupational Standards

This unit addresses the unit of competency: Apply infection prevention and control procedures

Duration of Unit: 120 hours

This unit covers competencies required to participate in infection prevention and control. It involves competencies on wearing personal protective equipment; performing safety practices planning and preparing for sterilization; carrying out autoclaving procedure; storing hospital instruments, equipment and consumables, carrying out pest and rodent control and managing hospital waste

Summary of Learning Outcomes

By the end of this unit the trainee should be able to:

Learning Outcomes	Duration (hrs)
1. Wear personal protective equipment	10
2. Perform safety practices	20
3. Plan and prepare for sterilization	6
4. Carry out autoclaving procedure	20
5. Store instruments, equipment and consumables	20
6. Carry out pest and rodent control	14
7. Manage hospital waste	20
Total	120

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Wear personal protective equipment	• Personal protective Equipment • Hand washing procedure • Maintaining hand hygiene • Gloving and ungloving procedure	• Portfolio assessment • Interview • Case studies/situation • Practical • Observation • Written
2. Perform safety practices	• Deposal of sharp objects • Types of hospital hazards • Hospital waste • Hospital waste segregation	• Practical • Observation • Written

	• Universal safety precautions	
3. Plan and prepare for sterilization	• Autoclave • Hospital equipment	• Practical • Observation • Written
4. Carry out autoclaving procedure	• Autoclaving procedure • Sterilizable material	• Practical • Observation
5. Store instruments, equipment and consumables	• Hospital instruments, equipment and consumables • Maintaining hospital equipment	• Cases studies/situation • Practical • Written • Observation
6. Carry out pest and rodent control	• Types of pest and rodents • Methods of controlling rodents and pests	• Portfolio assessment • Interview • Cases studies/situation • Written
7. Manage hospital waste	• Types of hospital waste • Segregation of hospital waste • Storage of hospital waste • Transporting hospital waste • Methods of disposing hospital waste	• Portfolio assessment • Cases studies/situation • Practical • Observation

Suggested Methods of Delivery:

- Instructor lead facilitation of theory
- Practical demonstration of tasks
- Practice by trainee
- Simulation/Role play
- Group Discussion

List of Recommended Resources

• Face mask • Gloves • Goggles • Patient's gown	• Disposable gowns • Trays • Antiseptic • Stools	•
--	---	---

• Surgical spirit • Decontaminant • Clamps • Sharps' containers	• Gauze • Swabs • Waste bins • Polyethene bags • Assorted scissors	
--	--	--

MODULE IV

WORK ETHICS AND PRACTICES

ISCED UNIT CODE: 0417 441 12A

TVET CDACC UNIT CODE: HW/CU/HSS/CC/03/5/MA

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Apply work ethics and practices.

Duration of Unit: 40 hours

Unit Description

This unit covers competencies required to demonstrate employability skills. It involves the ability to: conduct self-management, promote ethical work practices and values, promote teamwork, manage workplace conflicts, maintain professional and personal development, apply problem-solving, and promote customer care.

Summary of Learning Outcomes

SNO	Learning Outcome	Duration (Hours)
1.	Apply Self-Management Skills	10
2.	Promote Ethical Practices and Values	4
3.	Promote Teamwork	10
4.	Maintain Professional and Personal Development	10
5.	Apply Problem-Solving Skills	4
6.	Promote Customer Care.	2
	TOTAL	40

Learning Outcomes, Content, and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Apply Self-Management Skills	1.1 Self-awareness	● Practical

Learning Outcome	Content	Suggested Assessment Methods
	1.2 Formulating personal vision, mission, and goals 1.3 Healthy lifestyle practices 1.4 Strategies for overcoming work challenges 1.5 Emotional intelligence • Coping with Work Stress. • Assertiveness versus aggressiveness and passiveness • Developing and maintaining high self-esteem • Developing and maintaining positive self-image 1.6 Time management 1.7 Setting performance targets 1.8 Monitoring and evaluating performance targets	• Portfolio of evidence • Third party report • Written tests • Oral tests
2. Promote Ethical Work Practices And Values	2.1 Integrity 2.2 Core Values, ethics and beliefs 2.3 Patriotism 2.4 Professionalism 2.5 Organizational codes of conduct 2.6 Industry policies and procedures	• Practical • Portfolio of evidence • Third party report • Written tests • Oral tests

Learning Outcome	Content	Suggested Assessment Methods
3. Promote Teamwork	3.1 Types of teams 3.2 Team building 3.3 Individual responsibilities in a team 3.4 Determination of team roles and objectives 3.5 Team parameters and relationships 3.6 Benefits of teamwork 3.7 Qualities of a team player 3.8 Leading a team 3.9 Team performance and evaluation 3.10 Conflicts and conflict resolution 3.11 Gender and diversity mainstreaming 3.12 Developing Healthy workplace relationships 3.13 Adaptability and flexibility 3.14 Coaching and mentoring skills	● Practical ● Portfolio of evidence ● Third party report ● Written tests ● Oral tests
4. Maintain Professional and Personal Development	4.1 Personal vs professional development and growth 4.2 Avenues for professional growth 4.3 Recognizing career advancement 4.4 Training and career opportunities	● Practical ● Portfolio of evidence ● Third party report ● Written tests ● Oral tests

Learning Outcome	Content	Suggested Assessment Methods
	4.5 Assessing training needs 4.6 Mobilizing training resources 4.7 Licenses and certifications for professional growth and development 4.8 Pursuing personal and organizational goals 4.9 Managing work priorities and commitments 4.10 Dynamism and on-the-job learning	
5. Apply Problem-Solving Skills	5.1 Causes of problems 5.2 Methods of solving problems 5.3 Problem-solving process 5.4 Decision making 5.5 Creative thinking and critical thinking process in development of innovative and practical solutions	● Practical ● Portfolio of evidence ● Third party report ● Written tests ● Oral tests
6. Promote Customer Care	6.1 Identifying customer needs 6.2 Qualities of good customer service 6.3 Customer feedback methods 6.4 Resolving customer concerns 6.5 Customer outreach programs 6.6 Customer retention	● Practical ● Portfolio of evidence ● Third party report ● Written tests ● Oral tests

Suggested Methods of Instruction

- Instructor lead facilitation of theory using active learning strategies.
- Demonstrations
- Simulation/Role play
- Group Discussion
- Presentations
- Projects
- Case studies
- Assignments

ENTREPRENEURIAL SKILLS

TVET CDACC Unit Code: HW/CU/HSS/CC/04/5/MA

ISCED UNIT CODE 0413 541 08A

Relationship to occupational standards

This unit addresses the unit of competency: Apply entrepreneurial skills

Duration of unit: 40 hours

Unit description

This unit covers the competencies required to apply entrepreneurial skills. It involves applying financial literacy, applying entrepreneurial concepts identifying entrepreneurship opportunities, applying business legal aspects, and developing business innovative strategies and business plans.

Summary of Learning Outcomes

By the end of this unit, the learner should be able to:

S/No	Learning Outcomes	Duration (Hours)
1.	Apply Financial Literacy	6
2.	Apply the Entrepreneurial Concept	4
3.	Identify Entrepreneurship Opportunities	6
4.	Apply Business Legal Aspects	6
5.	Innovate Business Strategies	6
6.	Develop A Business Plan	12
Total		40

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Apply financial literacy	1.1 Personal finance management Sources of personal funds • Salary/Wages • Investments • Savings • Inheritance • Government Benefits	• Observation • Project • Written assessment • Oral assessment • Third party report • Interviews

	1.1.1. Sources of business funds • Equity Financing • Debt Financing, • Personal Savings/Investment • Retained Earnings • Grants and Subsidies • Crowdfunding • supplier Credit: • Leasing and Asset Financing: 1.2 Saving management 1.3 Factors to consider when deciding where to save 1.4 Debt management • Balancing between needs and wants • Budget Preparation • Factors to consider before taking a loan 1.5 Investment decisions • Types of investments • Factors to consider when investing money 1.6 Insurance services • insurance products available in the market • Insurable risks	
2. Apply entrepreneurial concept	2.1 Difference between Entrepreneurs and Business persons	• Observation • Project • Written assessment

	2.2 Types of entrepreneurs • Innovators • Imitators • Craft • Opportunistic • Speculators 2.3 Ways of becoming an entrepreneur 2.4 Characteristics of Entrepreneurs • Creative • Innovative • Planner • Risk taker • Networker • Confident • Flexible • Persistent • Patient • Independent • Future oriented • Goal oriented 2.6 salaried employment and self-employment 2.7 Requirements for entry into self-employment • Technical skills • Management skills • Entrepreneurial skills • Resources • Infrastructure	• Oral assessment • Third party report
--	---	---

	2.8 Roles of an Entrepreneur in an enterprise 2.9 Contributions of Entrepreneurship	
3. Identify entrepreneurship opportunities	3.1 Sources of business ideas 3.2 Factors to consider when evaluating business opportunity 3.3 Business life cycle	• Observation • Project • Written assessment • Oral assessment • Third party report
4. Apply business legal aspects	4.1 Forms of business ownership • Sole proprietorship • Partnership • Limited companies • Cooperatives 4.2 Business registration and licensing processing 4.3 Types of contracts and agreements 4.4 Employment laws 4.5 Taxation laws	• Observation • Project • Written assessment • Oral assessment • Third party report

- Videos
- Selected audiovisual materials

HEALTH FACILITY PROCEDURES

TVET CDACC Unit Code: HW/OS/HSS/CR/01/5/MA

ISCED UNIT CODE: 0988 451 15A

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Support Health Facility Procedures

Duration of Unit: 100 hours

Unit Description

This unit specifies the competencies required to support health facility procedures. It involves outlining health facility set up, medical equipment in basic patient care, identifying elements of total-patient-care and applying basic patient care procedures.

Summary of Learning Outcomes

By the end of this unit the trainee should be able to:

Learning Outcomes	Duration (hrs)
1. Outline health facility set up	10
2. Orient health facility client	20
3. Use medical equipment in basic patient care	20
4. Identify elements of total-patient-care	20
5. Apply basic patient care procedures	20
6. Implement administrative functions of Healthcare Support Assistant	10
Total	100

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Outline Health Facility Set Up	• Meaning of terms • Types of departments in a health facility • Management structure and ministerial organogram • Levels of health facilities • Health facility layout • Specialised Health units • Support departments/units	• Observation • Written • Oral • Third party report
2. Orient Health Facility Client	• Staff - client rapport • Communication channels in facility • Chain of command in Health facility • Functions of Facility departments/units	• Oral questions • Observation • Written test • Third party report

	• Roles of various health professions; Nurses, clinicians, rehabilitative units, diagnostic units etc •	
3. Use medical equipment for basic patient care	• Meaning of terms • Types of health facility equipment and instruments • Functions of health facility equipment and instruments • Care and maintenance of health facility equipment and instruments	• Observation • Written • Oral • Third party report
4. Identify elements of total-patient-care	• Meaning of terms • Physical elements of total-patient-care • Socio-cultural elements of total-patient-care • Psychological elements of total-patient-care, • Spiritual elements of total-patient-care	• Written • Oral • Observation • Third party report
5. Apply basic patient care procedures	• Meaning of terms • Types of basic patient care procedures • Patient triaging • Client flow management • Decontamination process • Storage of instruments and equipment • Waste segregation and disposal	• Oral questions • Observation • Written test • Third party report
6. Implement Administrative Functions of Healthcare Support Assistant	• Roles of Healthcare Support Assistants (HSAs) • The Scope of Practice for HSAs • Administrative duties for HSAs • The role of HAS in Health and Care Support system in Kenya and globally • Challenges faced by HSAs in practice • HAS vs Inter-cadres' roles: • Conflicting roles related to HSAs • General conduct and ethics for HSAs	• Oral questions • Observation • Written test • Third party report

	• International and global opportunities for HSAs • Legal Aspects in HSS	
--	---	--

Suggested Methods of Delivery:

- Instructor lead facilitation of theory
- Practical demonstration of tasks
- Practice by trainee
- Simulation/Role play
- Group Discussion

Required resources

- Blood pressure machine
- Thermometers
- Weighing machine
- PPE
- Decontaminants
- Buckets with lids
- Bin liners
- Colour coded bins
- Assorted hospital equipment and instruments
- Hospital signage

PATIENT CARE SUPPORT

TVET CDACC Unit Code: HW/OS/HSS/CR/03/5/MA

ISCED UNIT CODE: 0988 451 16A

Relationship to Occupational Standards

This unit addresses the Unit of Competency: Support Patient Care Services

Duration of Unit: 200

Unit Description

This unit covers competencies required to support patient care services. It involves supporting outpatient services, patient's triaging and admission procedure, in-patient care activities and patient discharge process, performing home-based patient care, it also involves Evaluating and winding up patient care support activities.

Summary of Learning Outcomes

By the end of this unit the trainee should be able to:

Learning Outcomes	Duration (hrs)
1. Support Outpatient Services	40
2. Support Patient's Triaging Process	20
3. Support Patient Admission Procedure	20
4. Support in-patient Care Activities	60
5. Support Patient Discharge Process	10
6. Perform Home Based Patient Care	30
7. Evaluate Patient Care Support Activities	10
8. Wind Up Patient Care Support Activities	10
Total	200

Learning Outcomes, Content and Suggested Assessment Methods

Learning Outcome	Content	Suggested Assessment Methods
1. Support Outpatient Services	• Definition of Outpatient • History of outpatient services • Objective of Outpatient services • Importance of outpatient services • Functions of outpatient services • Preventive health activities in OPD	

	• Types of OPD services • Types of OPD patients • Sources of outpatients • Opd process • OPD planning and its considerations • Types of OPD procedures • Organizational components of OPD • Problems in Outpatient • Organization and management of inpatient services • Objectives of inpatient services • Types of inpatient services • Factors influencing patient care services	
2. Support Patient's Triage Process	• Definition of triage • Goals of triage • Advantages of triage • Triage process • Triage assessment • 5 level triages	
3. Support Patient Admission Procedure	• Types of admission • Admission procedure • Preparation of admission unit/ward • Transfer of patient from outpatient to the ward • Handing over of the patient to the ward nurse	
4. Support in-patient Care Activities	Maintain patient body hygiene • Identification of patient • Identification of body hygiene equipment • Types of body hygiene activities • Identification of body hygiene activities • Bathing • Brushing teeth • Handwashing • Face washing • Nail trimming • Shaving or grooming • Perineal care • Eye care	

	• Oral and mouth care • Hair care Patient Comfort • Identification of patient for comfort activities • Assembling of comfort resources • Types of patient comfort activities • Physical comfort activities • Psychological comfort activities • Social comfort activities • Environmental comfort activities Patient Feeding • Identification of patient feeding mode • Conducting pre- feeding procedure • Conducting post feeding procedure • Maintaining patient feeding record Wound Dressing • Assessment of patient condition • Selection of wound dressing materials • Patient preparation on wound dressing • Types of wounds • Conducting wound dressing • Disposal of wound dressing materials Nursing oriented care • Prescription interpretation prescription • Drug administration • Drug intake compliance • Common drug side effects • Support specialised patient care • Medical specialties • Support to Referral procedure Introduction to patient comfort and safety • Definition of patient comfort and safety • Ways of providing patient comfort • Safety devices • Bed making - Definition - Types of bed ▪ Unoccupied bed	
--	---	--

	▪ Occupied bed ▪ Postoperative bed ▪ Purposes of bed making ▪ Principles of bedmaking ▪ Procedure of making bed ▪ Performing oral care ☐ Definition ☐ Purposes or oral hygiene ☐ Assisting in oral care ☐ Procedure of oral hygiene • Bed bath ☐ Definition of bed bath ☐ Purposes of bed bath ☐ Indications ☐ Types of bed bath ☐ Procedure of bed bath • Perineal care ☐ Definition ☐ Principles of perineal care ☐ Preparation of articles ☐ Preparation of patient ☐ Procedure ☐ After care • Vital signs ☐ Definition ☐ Purpose of measuring vital signs ☐ procedure • Tube feeding ☐ Purposes of tube feeding ☐ Indications of tube feeding ☐ Procedure of tube feeding • Specimen collection ☐ Definition of specimen ☐ Types of specimen ☐ Obtaining a specimen ☐ Handling of specimen • Dental care ☐ Definitions ☐ Goals of dental care ☐ Common dental disorders ☐ Organizing a dental clinic	
--	--	--

	• Hospital pharmacy ☐ Definition ☐ Types of pharmacy ☐ Objectives of hospital pharmacy ☐ Functions of hospital pharmacy ☐ Sources of drugs ☐ Storage of drugs ☐ Classification of drugs ☐ Terms commonly used in drugs ☐ Dispensing of drugs • Eye care ☐ Definition ☐ Purposes ☐ Indications ☐ Procedure ☐ Common eye problems ☐ Organizing an eye clinic • Physiotherapy services ☐ Introduction to physiotherapy ☐ Roles of physiotherapy ☐ Conditions treated with physiotherapy ☐ Methods used in physiotherapy ☐ Assisting in physiotherapy services	
5. Support Patient Discharge Process	• Definition of discharge • Discharge preparation • Discharge process • Discharge documentation • Discharge instructions	
6. Perform Home Based Patient Care	• Definition of home-based care • Types of home-based care activities • Home based care patients • Required home-based care services • Maintaining a healthy homebased patient care environment • Danger signs during homebased patient care	

Suggested Methods of Delivery:

- Guided practical activities
- Direct instruction
- Group Discussion
- Demonstrations

- Case studies

Recommended Resources for 25 trainees

- Adequate PPEs
- Adequate utensils
- 2 trolleys
- 2 stretchers
- 5 adhesives and sealants for wound dressing
- 1 refrigerator
- 1 kitchen wheelbarrow
- 2 first Aid kit
- 4 sinks
- 1 White boards
- 1 projector
- 1 computer/laptop
- Simulated room with adequate furniture and stationery
