MONTH 1 — Knowledge Foundation

All practicals use wall charts, flashcards and role play. Clinical teacher: mornings. Business teacher: afternoons.

WEEK 1

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Human Anatomy & Physiology Body organization, cells, homeostasis	Human Anatomy & Physiology Skeletal & muscular systems	Human Anatomy & Physiology Circulatory & lymphatic	Human Anatomy & Physiology Respiratory & digestive	Human Anatomy & Physiology Urinary, nervous & endocrine
10:00–12:00 PM	Medical Terminology Prefixes, suffixes, root words	Medical Terminology Abbreviations & acronyms	Medical Terminology Terms per body system	Medical Terminology Flashcard drills & oral quiz	Revision & CAT 1 Anatomy + terminology
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Communication Skills Communication process & channels	Communication Skills Written communication	Communication Skills Non-verbal & oral skills	Work Ethics & Practices Self-management & professionalism	Work Ethics & Practices Teamwork & conflict resolution
3:00–5:00 PM	Anatomy practical Label body systems on charts	Anatomy practical Identify organs on wall charts	Terminology practical Build glossary booklet	Self-study Anatomy notes + diagrams	Self-study Terminology flashcard review

WEEK 2

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Human Anatomy & Physiology Reproductive system & special senses	Common Diseases Control Communicable diseases overview	Common Diseases Control Modes of transmission	Common Diseases Control Non-communicable diseases	Common Diseases Control Prevention & control measures
10:00–12:00 PM	Anatomy wrap-up practical Draw & label systems from memory	Common Diseases practical Case study: identify & manage	Common Diseases practical Group presentations per disease	Common Diseases practical Risk factor analysis scenarios	Revision & CAT 2 Common diseases + anatomy
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Communication Skills Group discussion skills	Communication Skills Healthcare communication role play	Work Ethics & Practices Problem solving & customer care	Work Ethics & Practices Professional development planning	Work Ethics practical Personal development plan exercise
3:00–5:00 PM	Anatomy final practical Competency check — all systems	Diseases practical Hospital scenario case studies	Self-study Disease notes & research	Self-study Communication written exercises	Self-study Work ethics reflection journal

WEEKS 3 & 4

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Psychosocial Care Emotional & social needs assessment	Psychosocial Care Depression, anxiety, fear, stress	Psychosocial Care Conducting emotional support	Psychosocial Care Family sessions & resources	Psychosocial Care Self-care for caregivers
10:00–12:00 PM	Psychosocial practical Role play: depressed patient	Psychosocial practical Role play: anxious/fearful patient	Psychosocial practical Role play: grieving family member	Psychosocial practical Peer feedback on support techniques	Revision & CAT 3 Psychosocial + communication
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Work Ethics — wrap up Ethical dilemmas in healthcare	Communication — wrap up Written patient communication	Communication assessment Oral presentation per student	Work Ethics assessment Case study group debate	Month 1 final revision All units — both teachers

3:00–5:00 PM

Psychosocial practical
Self-care checklist exercise

Psychosocial practical
Full role play — competency check

Self-study
Psychosocial reflection notes

Self-study
Glossary booklet completion

Month 1 CAT — final
Written test all Month 1 units

MONTH 2 — Patient-Facing Knowledge

One full-day hospital observation visit in Week 3. IPC practicals use existing gloves, masks, waste bins and gauze.

WEEK 1

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Client Dietary Interventions Meaning & types of dietary needs	Client Dietary Interventions Dietary assessment tools	Client Dietary Interventions Special diets: diabetic, ketogenic, allergy	Client Dietary Interventions Routes of feeding — oral & tube	Client Dietary Interventions Individualized feeding care plan
10:00–12:00 PM	Dietary practical Draw up sample feeding care plans	Dietary practical Oral feeding assistance simulation	Dietary practical Tube feeding model demonstration	Dietary practical Dietary monitoring documentation	Revision & CAT 4 Dietary interventions
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Medical Legal Ethics Definition of ethics, morals & values	Medical Legal Ethics Patient rights & consent	Medical Legal Ethics Confidentiality & documentation	Medical Legal Ethics Employment & labour law in Kenya	Medical Legal Ethics Medical legal offences in HSS
3:00–5:00 PM	Dietary practical Cultural food practices discussion	Dietary practical Menu planning for special diets	Self-study Dietary assessment tool research	Self-study Medical legal ethics case notes	Self-study Patient rights reading

WEEK 2

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Infection Prevention & Control PPE types, use & importance	Infection Prevention & Control Hand hygiene & gloving procedure	Infection Prevention & Control Hospital hazards & waste segregation	Infection Prevention & Control Universal precautions & sharps disposal	Infection Prevention & Control Sterilization & autoclaving principles
10:00–12:00 PM	IPC practical Glove donning & doffing drills	IPC practical Hand washing — glitter demo	IPC practical Colour-coded waste bin sorting	IPC practical Sharps container use & disposal	Revision & CAT 5 IPC + medical legal ethics
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Medical Legal Ethics Professional ethics components	Medical Legal Ethics Professional conduct & etiquette	Medical Legal Ethics practical Ethical dilemma case study debates	Medical Legal Ethics assessment Written test + group scenarios	Self-study IPC procedures review
3:00–5:00 PM	IPC practical Full PPE donning — complete sequence	IPC practical Pest control & rodent methods	IPC practical Hospital waste management simulation	Self-study IPC competency checklist self-review	Self-study Ethics reflection assignment

WEEKS 3 & 4

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Health Facility Procedures Types of departments & facility levels	Health Facility Procedures Management structure & organogram	Health Facility Procedures Medical equipment & instruments	Health Facility Procedures Total patient care elements	Health Facility Procedures HSA roles, scope & ethics
10:00–12:00 PM	HFP practical Patient flow simulation in class	HFP practical Vital signs: BP cuff & thermometer	Hospital observation visit OPD, wards, pharmacy, stores tour	HFP debrief Discuss hospital visit observations	Revision & CAT 6 HFP + IPC
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	IPC — wrap up Storage of instruments & consumables	IPC competency check Each student demonstrates PPE sequence	Hospital observation visit Continues — full day visit	HFP assessment Identify equipment & instruments test	Month 2 final revision All Month 2 units

3:00–5:00 PM

HFP practical
Read hospital signage & documents

HFP practical
Patient triaging simulation

Self-study
Hospital visit report writing

Self-study
HFP competency checklist

Month 2 CAT — final
Written test all Month 2 units

MONTH 3 — Clinical Hands-On Skills

First aid and special needs are heavily practical. Use first aid kit, bandages, gauze and mannequin. Hospital stores visit in Week 3.

WEEK 1

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	First Aid Services Principles of first aid & scene assessment	First Aid Services CPR theory & technique	First Aid Services Choking, burns & scalds management	First Aid Services Fractures, dislocations & sprains	First Aid Services Poisoning, snake bites & insect stings
10:00–12:00 PM	First Aid practical CPR on mannequin — compressions	First Aid practical CPR — rescue breaths & full sequence	First Aid practical Burns dressing with gauze & bandage	First Aid practical Bandaging fractures — splinting	Revision & CAT 7 First aid theory week 1
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Special Needs Care Support Geriatric care — assessment & activities	Special Needs Care Support Terminal illness — types & care	Special Needs Care Support Mental illness — types & care	Special Needs Care Support Disability types & care activities	Special Needs Care Support Children with special needs
3:00–5:00 PM	First Aid practical Choking response — back blows demo	First Aid practical Nose bleeding & wound management	Special Needs practical Role play: caring for elderly patient	Self-study First aid scenario practice notes	Self-study Special needs care plan drafts

WEEK 2

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	First Aid Services Asthma, epilepsy, heart attack support	First Aid Services Hyperglycaemia, hypoglycaemia, seizures	First Aid Services Anaphylaxis & severe allergic reactions	First Aid evaluation & wind-up Documentation, referral, waste disposal	First Aid — final CAT Written + practical competency check
10:00–12:00 PM	First Aid practical Asthma & seizure response simulation	First Aid practical Anaphylaxis response drill	First Aid practical Full emergency scenario — stations	First Aid practical Handing over to medical personnel	Revision & CAT 8 First aid complete
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Special Needs practical Role play: terminally ill patient	Special Needs practical Role play: mentally ill patient	Special Needs practical Role play: child with special needs	Special Needs practical Role play: disabled patient care	Special Needs practical Psychosocial support activities
3:00–5:00 PM	Special Needs practical Care plan documentation per case	Special Needs practical Referral procedure simulation	Self-study Special needs care plan assignment	Self-study First aid scenario self-test	Self-study Special needs report writing

WEEKS 3 & 4

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Hospital Store Procedures Procurement & inventory management	Hospital Store Procedures Storage, distribution & supply chain	Hospital Store Procedures Mortuary — body handling & documentation	Hospital Store Procedures Mortuary waste & embalming basics	Revision & CAT 9 Hospital stores + special needs
10:00–12:00 PM	Stores practical Invoice & delivery note exercises	Stores practical Stock card & bin card updates	Hospital stores visit See real stock management & cold chain	Stores debrief Discuss visit — document findings	Month 3 final revision All Month 3 units
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Special Needs — wrap up Competency check — all client types	Special Needs assessment Role play competency sign-off	Hospital stores visit Continues — full day visit	Stores practical Simulate stock count & expired stock	Month 3 CAT — final Written test all Month 3 units

3:00–5:00 PM

Stores practical
Departmental request order forms

Stores practical
Mortuary document practice

Self-study
Hospital stores visit report

Self-study
Stores procedures assignment

Self-study
Month 3 revision all units

MONTH 4 — Applied Patient Care + External Placements

Patient Care Support dominates Weeks 1–3 using simulated ward (bed + equipment you have). Week 4 is full-day hotel placement for Housekeeping & Catering.

WEEK 1

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Patient Care Support OPD services — types, objectives, process	Patient Care Support Triageing — 5 levels & process	Patient Care Support Admission procedure & ward preparation	Patient Care Support Patient body hygiene — types & activities	Patient Care Support Bed making — types & procedure
10:00–12:00 PM	PCS practical Patient flow & triaging simulation	PCS practical Admission documentation practice	PCS — simulated ward Bed making — unoccupied & occupied	PCS — simulated ward Bed bath procedure on each other	Revision & CAT 10 PCS week 1 content
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Entrepreneurial Skills Financial literacy & personal finance	Entrepreneurial Skills Entrepreneurial concepts & types	Entrepreneurial Skills Business opportunities in healthcare	Entrepreneurial Skills Business legal aspects & registration	Pre-Departure Process Destination country research
3:00–5:00 PM	PCS practical Oral care procedure	PCS practical Perineal care procedure	PCS practical Vital signs — BP, temperature, pulse	Self-study PCS procedure revision	Self-study Business plan — first draft

WEEK 2

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Patient Care Support Wound dressing — types & procedure	Patient Care Support Tube feeding — purposes & procedure	Patient Care Support Drug administration support & compliance	Patient Care Support Specimen collection — types & handling	Patient Care Support Eye care, dental care, physio support
10:00–12:00 PM	PCS — simulated ward Wound dressing with gauze & bandages	PCS — simulated ward Tube feeding model — full procedure	PCS — simulated ward Drug interpretation & recording	PCS — simulated ward Specimen collection simulation	Revision & CAT 11 PCS week 2 content
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Pre-Departure Process Travel documents & acquisition	Pre-Departure Process International travel procedures	Pre-Departure Process Work ethics & legal aspects abroad	Pre-Departure practical Country research presentations	Pre-Departure practical Mock visa form & work contract review
3:00–5:00 PM	PCS practical Hair care, nail care, grooming	PCS practical Patient comfort — physical & psychological	PCS practical Patient feeding — pre & post procedure	Self-study Business plan — second draft	Self-study Pre-departure assignment

WEEK 3

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Patient Care Support Discharge — preparation & documentation	Patient Care Support Home-based care — types & activities	Patient Care Support Danger signs in home-based care	PCS evaluation & wind-up Evaluate & document patient care activities	PCS — final CAT Written + practical competency check
10:00–12:00 PM	PCS — simulated ward Discharge documentation practice	PCS — simulated ward Full patient care scenario — all procedures	PCS competency check Each student demonstrates all procedures	PCS sign-off Teacher signs competency checklist	Revision & CAT 12 PCS complete
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Entrepreneurial Skills Business plan development	Entrepreneurial Skills Business plan presentations	Entrepreneurial Skills assessment Business plan peer & teacher feedback	Pre-Departure assessment Written test + oral presentation	Month 4 revision PCS, entrepreneurship, pre-departure

3:00–5:00 PM	PCS practical Home-based care environment checklist	Self-study PCS home-based care assignment	Self-study Final business plan polish	Self-study Attachment logbook orientation	Month 4 CAT — final Written test all Month 4 classroom units
--------------	---	---	---	---	--

WEEK 4 — HOTEL PLACEMENT (Housekeeping & Catering)

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00–10:00 AM	Hotel — Housekeeping Cleaning procedures & equipment use	Hotel — Housekeeping Bed making in hotel rooms	Hotel — Laundry Washing, drying & finishing procedures	Hotel — Catering Kitchen orientation & food prep	Hotel — Catering Meal preparation & presentation
10:00–12:00 PM	Hotel — Housekeeping Cleaning checklists & standards	Hotel — Housekeeping Linen control & storage	Hotel — Laundry Iron, steam press & finishing equipment	Hotel — Catering Special diets — diabetic & soft meals	Hotel — Catering Post-production cleaning & waste disposal
12:00–1:00 PM	LUNCH BREAK				
1:00–3:00 PM	Hotel — Housekeeping Full room clean — competency practice	Hotel — Housekeeping Laundry pre-activities	Hotel — Catering Portion control & garnishing	Hotel — Catering Food safety & hygiene checks	Hotel supervisor sign-off Competency checklist per student
3:00–5:00 PM	Hotel — Housekeeping Supervisor competency sign-off	Hotel — Laundry Supervisor competency sign-off	Hotel — Catering Final meal preparation assessment	Hotel — Catering Supervisor competency sign-off	Attachment briefing Logbook orientation — both teachers

MONTHS 5–6: HOSPITAL ATTACHMENT (480 HOURS)

Students rotate through hospital departments weekly. Logbook signed by hospital supervisor every week. This serves as portfolio evidence for TVET CDACC summative assessment.

Period	Department	Activities & Competencies to Demonstrate	Evidence Required	Sign-off By
Weeks 1–2	Outpatient Department (OPD)	Patient registration, flow management, triaging support, OPD documentation, client communication	Logbook entries + supervisor signature weekly	OPD Supervisor
Weeks 3–4	General Ward	In-patient hygiene, bed making, feeding support, vital signs recording, wound dressing support, oral & perineal care	Logbook entries + competency checklist signed	Ward Nurse In-Charge
Week 5	Hospital Stores & Pharmacy	Inventory management, procurement support, supply distribution, drug storage observation, bin card practice	Logbook entries + stores supervisor signature	Hospital Stores Officer
Week 6	Special Units	Geriatrics ward, paediatric unit, mental health unit — apply special needs care competencies in practice	Logbook entries + unit supervisor signature	Unit Nurse In-Charge
Week 7	Infection Control & Mortuary	PPE use in real setting, sterilization observation, waste management in practice, mortuary procedure observation	Logbook entries + IPC officer signature	IPC Officer / Mortuary Technician
Week 8	Assessment & Sign-Off	Final competency assessment, logbook submission, supervisor evaluation form completion, overall sign-off	Complete logbook + signed evaluation form	Hospital Attachment Coordinator
